Current Location: City of Buenos Aires

Birth Date: July, 1980

Online profile here: shorturl.at/rlrw7

Analyst in Computer Science
Universidad de Buenos Aires

4 year degree in Computer Sci. based on Princeton/Standford curriculas.

+1 year Software Engineering.

+1 year on Digital Image Processing, Game Theory and Complex Systems Analysis.

Off Topic but Crucial

Straight communication with managers, engineers and leaders whenever a project has undetected technical risks and budget misallocation.

Capacity to identify, expose and remove engineering process bottlenecks, rapidly alleviating resource misallocation.

Fast tinkering and prototype building with novel designs, on personal time, pitching, and delivery to production with high R.O.I.

course - devops - Project in Docker – Docker Basics – Microservices
course - frontend - Webpack 5 Fundamentals – Pluralsight
course - frontend - Node.js Introduction to Node.js, Events, and Streams (interactive)
course - frontend - Vue.js 3 Fundamentals
course - frontend - SASS Workflow - Udemy
course - frontend - React practice course, Build React app from scratch.
course - frontend - Learn SASS and SCSS
course - frontend - SinouJS Fundamentals
course - frontend - Better Code Quality with ESLint
course - frontend - Testing Javascript for Node.js with Mocha – PluralSight
course - backend - Microservices the Big Picture - PluralSight
course - backend - Microservices, message brokers
course - backend - Scaling Applications with Microservices, MassTransit 3, and RabbitMQ
course - backend - GraphQL: the big picture - PluralSight
course - backend - Building Microservices - Plural Sight
course - security - The Nuts and Bolts of OAuth 2.0
course - security - OWASP Top 10 - 2021 Specialization (1-5)
course - teams - Master Certification 2023 - Certification + Agile Scrum
course - systems analysis - Domain-Driven Design Fundamentals - PluralSight
course - devops CI/CD - GitLab CI - A Complete Hands-On for CI/CD Pipelines & DevOps

docker image - aws cloud - AWS Cloud WorkBench - Test project for AWS Cloud services, including S3, Macie, Glacier, DataSync, RDS, Lambda, SQS, SES.

As FullStack developer

API Rest, GIT, Web Frameworks, HTML5, CCS3, Javascript

As java developer

Java Desktop, Java 8 Full Stack, Spring Boot, Hibernate, JPA, Maven, JSF

As PHP developer

Laravel, Symfony Framework

As C# developer

C#.NET, .NET Core, Web Forms, ASPX, Full Stack

As C++ developer

C++ development, assembler, memory management problems detection

As Microsoft Dynamics developer

Microsoft Dynamics for Finance and Operations development, performance analysis

Other skills and activities

Agile methods, SCRUM, rapid prototyping, functional analysis, performance analysis, SQL optimization, analysis and design of software architecture, reengineering, deployment to production, analysis and removal of bottlenecks,, maintenance of systems in production

Yahoo Inc.

Duration 9 months

Skills applied Software Engineer role, Team Leadership, Tech Risk Analysis, Fast Prototyping. DevOps. PHP Dev.

Tech Stack PHP, GitHub, REST API, CI/CD, DevOps, SCRUM, PHP Unit, . Project with World wide user base.

Habitat Ministry (Gov.)

Duration 1 year, 2022

Skills applied Reengineering, Software Architecture Design, Full Stack Development

Tech Stack PHP, Laravel, Full Stack Dev, MySQL

Axite S.R.L.

Duration 3 years, 2019-2021

Skills applied Microsoft Dynamics 365 for Finance and Operations development, Performance Analysis, Reverse Engineering

Tech Stack Microsoft Dynamics 365 for Finance and Operations, SQL Server

Excelsos

Duration 10 years

Skills applied Linux server admin, Linux server admin, PHP and .NET Full Stack

Tech Stack C#.NET, PHP, MySQL, PostgreSQL, Bash, Linux, Apache

VMN S.R.L.

Duration 2.5 years

Skills applied Java Developement, Performance Analysis, Reengineering

Tech Stack C#.NET, Java, Hibernate, Spring, MySQL, SQL Server

Megalabs

Modality Contractor

Product Mobile Apps

Skills applied Rapid Prototyping, Performance Analysis, Microsoft Dynamics UI to Mobile HTML Integration

Tech Stack Microsoft Dynamics 365, Web Dev Stack

Axite S.R.L.

Modality Contractor

Product Prototype: Service Bridge between Industrial Balance driver to Microsoft Dynamics 365

Skills applied Rapid Prototyping, Software Architecture, Development

Tech Stack C#.NET, Microsoft Dynamics 365 FO

VISA

Modality Contractor

Product Internal Management system

Skills applied Reengineering, deploy to production

Tech Stack Java, Spring, Hibernate

NEXTEL

Modality Contractor

Product Internal Management system

Skills applied Reengineering, deploy to production

Tech Stack Java, Spring, Hibernate

Shell

Modality Contractor

Product SAP to HTTPS Bridge

Skills applied Rapid Prototyping, Functional Analysis, Software Architecture Design, Development, Documentation, Deployment to production

Tech Stack Java, Rapid Prototyping, Agile

Citröen Argentina

Duration 3 months plus 4 years support

Modality Contractor

Product Platform for media sharing

Skills applied Rapid Prototyping, Functional Analysis, Software Architecture Design, Development, Documentation, Deployment to production

Tech Stack C#.NET, SQL Server, ASPX, .NET Desktop App Dev

Peugeot Argentina

Duration 3 months plus 4 years support

Modality Contractor

Product Custom unified CMS Platform for retail chain

Skills applied Rapid Prototyping, Functional Analysis, Software Architecture Design, Development, Documentation, Deployment to production, Support for Platform in Production

Tech Stack C#.NET, SQL Server, ASPX

Planning Ministry Argentina (Gov.)

Modality Contractor

Product Dynamic Forms Solution

Skills applied Functional Analysis, Software Architecture Design, Development, Documentation, Deployment to production

Tech Stack .NET, SQLServer, Agile

Immunology Lab at Gutierrez Hospital, Argentina (Gov.)

Duration 3 months plus 4 years support

Modality Contractor

Product Dynamic Forms Solution

Skills applied Functional Analysis, Software Architecture Design, Development, Documentation, Deployment to production, Support for platform in production

Tech Stack .NET, SQLServer, Agile

Lisicki Litvin

Duration 1 year plus 1 year support

Modality Contractor

Product Vendor Compliance Tracking and Reporting Platform

Skills applied Performance Bottleneck analysis and removal. Database Layer redesign for High Performance Reporting. Custom Tailored cache design for high performance reporting, Reengineering

Tech Stack PHP, MySQL

National Institute of Statistics Argentina (Gov.)

Duration Regarding this project, a positive aspect I take of the work done is that it was ready for production earlier that required by the client

Modality Contractor

Product Internal content management solution

Skills applied Functional Analysis, Software Architecture Design, Development, Documentation, Deployment to production

Tech Stack .NET, SQLServer, Agile

Hurlingam Township (Gov.)

Modality Contractor

Product Internal Management system

Skills applied Bug fixing in productive system

Tech Stack Java, SQL

Pergamino Township (Gov.)

Modality Contractor

Product Driving License renewal scheduling solution

Skills applied Functional Analysis, Software Development,Full Stack Developer, Rapid Prototyping, Agile

Tech Stack PHP, MySQL

451 Marketing Agency

Duration 2.5 months

Modality Contractor

Product Four major e-commerce platforms

Skills applied Engineering and development process bottleneck analysis and removal, Symfony Framework reengineering for critical deployment to production shortcut, SQL Profiling and Optimization

Tech Stack PHP, Symfony Framework, PostgreSQL

451 Marketing Agency

Duration 1.5 months

Modality Contractor

Product Newspaper custom CMS

Skills applied Time to production bottleneck removal

Tech Stack .NET Core, C#, SQLServer

AutoWeb Magazine

Duration 3 months plus 2 years support

Modality Contractor

Product Content Management System for Online Magazine

Skills applied Rapid Prototyping, Functional Analysis, Software Architecture Design, Development, Deployment to production, Support for Platform in Production

Tech Stack C#.NET, SQL Server, ASPX

Spanish native, English fluent.

PHP Full Stack Developer

PHP 8, Symfony, Web Stack (See related techs section below).

Java Full Stack Developer

Java 8, Spring Boot, Thymeleaf, JPA, Hibernate, Maven, Eclipse, Web Stack.

Related Techs

Other related techs: Agile development, HTML5, JavaScript, Microservices, Web Frameworks,CCS3, SQL, API Rest, GIT and other (ask for details).
