# HERNAN GABRIEL RANCATI

## CONTACT

**E-mail:** hernan.rancati@gmail.com

**Whatsapp / Phone:** +54 9 11 5579 0624

**Current Location:** C.A.B.A.

**Birth Date:** July 23 1980

**Online profile here: shorturl.at/ilrw7**

## EDUCATION

**Analyst in Computer Science (University grade)**
Universidad de Buenos Aires *

## SKILLS AND TECH

**As FullStack developer**
API Rest, GIT, Web Frameworks, HTML5, CCS3, Javascript

**As java developer**
Java Desktop, Java 8 Full Stack, Spring Boot, Hibernate, JPA, Maven, JSF

**As PHP developer**
Laravel, Symfony Framework

**As C# developer**
C# .NET, .NET Core, Web Forms, ASPX, Full Stack

**As C++ developer**
C++ development, assembler, memory management problems detection

**As Microsoft Dynamics developer**
Microsoft Dynamics for Finance and Operations development, performance analysis

**Other skills and activities**
Agile methods, SCRUM, rapid prototyping, functional analysis, performance analyisis, SQL optimization, analysis and design of software architecture, reengineering, deployment to production, analysis and removal of bottlenecks,, maintenance of systems in production

**Soft skills**
Intervención proactiva ante riesgo técnico y cuellos de botella, capacidad de comunicación con equipos de ingeniería, guía de desarrolladores en formación, capacidad de renegociación de alcances y diseños para salida rápida a producción

## WORK POSITIONS

### Yahoo Inc.

**Duration** 9 months (current)

**Skills applied** Software Development Full Stack

**Technology used** PHP, GitHub, REST APIs, Full Stack Developement, SCRUM, PHP Unit, Full Stack Developement

### Habitat Ministry (Government)

**Duration**  1 year, 2022

**Skills applied**  Reengineering, Software Architecture Design, Full Stack Developement

**Technology used**  PHP, Full Stack Dev, MySql

### Axite S.R.L.

**Duration**  3 years, 2019-2021

**Skills applied**  Microsoft Dynamics 365 for Finance and Operations development, Performance Analysis, Reverse Engineering

**Technology used**  Microsoft Dynamics 365 for Finance and Operations, SQL Server

### Excelsos

**Duration**  10 years

**Skills applied**  Linux server admin, Linux server admin, PHP and .NET Full Stack

**Technology used**  C# .NET, PHP, MySQL, PostgreSQL, Bash, Linux, Apache

### VMN S.R.L.

**Duration**  2.5 years

**Skills applied**  Java Developement, Performance Analysis, Reengineering

**Technology used**  C# .NET, Java, Hibernate, Spring, MySQL, SQL Server

## PROJECTS

### Shell

**Modality**  Consultant

**Product**  SAP to HTTPS Bridge

**Skills applied**  Rapid Prototyping, Functional Analysis, Software Architecture Design, Development, Documentation, Deployment to production

**Technology used**  Java, Rapid Prototyping, Agile

### VISA

**Modality**  Consultant

**Product**  Internal Management system

**Skills applied**  Reengineering, deploy to production

**Technology used**  Java, Spring, Hibernate

### NEXTEL

**Modality**  Consultant

| | |
|---|---|
| **Product** | Internal Management system |
| **Skills applied** | Reengineering, deploy to production |
| **Technology used** | Java, Spring, Hibernate |

### Megalabs

| | |
|---|---|
| **Modality** | Consultant |
| **Product** | Mobile Apps |
| **Skills applied** | Rapid Prototyping, Performance Analysis, Microsoft Dynamics UI to Mobile HTML Integration |
| **Technology used** | Microsoft Dynamics 365, Web Dev Stack |

### Axite S.R.L.

| | |
|---|---|
| **Modality** | Consultant |
| **Product** | Prototype: Service Bridge between Industrial Balance driver to Microsoft Dynamics 365 |
| **Skills applied** | Rapid Prototyping, Software Architecture, Development |
| **Technology used** | C# .NET , Microsoft Dynamics 365 FO |

### Axite S.R.L.

| | |
|---|---|
| **Modality** | Consultant |
| **Product** | Prototype for Web Bridge between Industrial Warehouse Device and Microsoft Dynamics 365 |
| **Skills applied** | Rapid Prototyping, Software Architecture, Development |
| **Technology used** | C# .NET , Microsoft Dynamics 365 FO |

### Citröen Argentina

| | |
|---|---|
| **Duration** | 3 months plus 4 years support |
| **Modality** | Consultant |
| **Product** | Platform for media sharing |
| **Skills applied** | Rapid Prototyping, Functional Analysis, Software Architecture Design, Development, Documentation, Deployment to production |
| **Technology used** | C# .NET, SQL Server, ASPX, .NET Desktop App Dev |

### Peugeot Argentina

| | |
|---|---|
| **Duration** | 3 months plus 4 years support |
| **Modality** | Contractor |
| **Product** | Custom unified CMS Platform for retail chain |
| **Skills applied** | Rapid Prototyping, Functional Analysis, Software Architecture Design, Development, Documentation, Deployment to production, Support for Platform in Production |
| **Technology used** | C# .NET, SQL Server, ASPX |

### Planning Ministry Argentina (Gov.)

| | |
|---|---|
| **Modality** | Contractor |
| **Product** | Dynamic Forms Solution |
| **Skills applied** | Functional Analysis, Software Architecture Design, Development, Documentation, Deployment to production |
| **Technology used** | .NET, SQLServer, Agile |

### Inmunology Lab at Gutierrez Hospital, Argentina (Gov.)

| | |
|---|---|
| **Duration** | 3 months plus 4 years support |
| **Modality** | Contractor |
| **Product** | Dynamic Forms Solution |
| **Skills applied** | Functional Analysis, Software Architecture Design, Development, Documentation, Deployment to production, Support for platform in production |
| **Technology used** | .NET, SQLServer, Agile |

### Lisicki Litvin

| | |
|---|---|
| **Duration** | 1 year plus 1 year support |
| **Modality** | Contractor |
| **Product** | Vendor Compliance Tracking and Reporting Platform |
| **Skills applied** | Performance Bottleneck analysis and removal. Database Layer redesign for High Performance Reporting. Custom Taylored cache design for high performance reporting, Reengineering |
| **Technology used** | PHP, MySQL |

### National Institute of Statistics Argentina (Gov.)

| | |
|---|---|
| **Duration** | Regarding this project, a positive aspect I take of the work done is that it was ready for production earier that required by the client |
| **Modality** | Contractor |
| **Product** | Internal content management solution |
| **Skills applied** | Functional Analysis, Software Architecture Design, Development, Documentation, Deployment to production |
| **Technology used** | .NET, SQLServer, Agile |

### Hurlingam Township (Gov.)

| | |
|---|---|
| **Modality** | Contractor |
| **Product** | Internal Management system |
| **Skills applied** | Bug fixing in productive system |
| **Technology used** | Java, SQL |

### Pergamino Township (Gov.)

| | |
|---|---|
| **Modality** | Contractor |
| **Product** | Driving License renewal scheduling solution |
| **Skills applied** | Functional Analysis, Software Development, Full Stack Developer, Rapid Prototyping, Agile |
| **Technology used** | PHP, MySQL |

### 451 Marketing Agency

| | |
|---|---|
| **Duration** | 2.5 months |
| **Modality** | Contractor |
| **Product** | Four major e-commerce platforms |
| **Skills applied** | Engineering and development process bottleneck analyisis and removal, Synfony Framework reengineering for crytical deployment to production shortcut, SQL Profiling and Optimization |
| **Technology used** | PHP, Symfony Framework, PostgreSQL |

### 451 Marketing Agency

| | |
|---|---|
| **Duration** | 1.5 months |
| **Modality** | Contractor |
| **Product** | Newspaper custom CMS |
| **Skills applied** | Time to production bottleneck removal |
| **Technology used** | .NET Core, C#, SQLServer |

### AutoWeb Magazine

| | |
|---|---|
| **Duration** | 3 months plus 2 years support |
| **Modality** | Contractor |
| **Product** | Content Management System for Online Magazine |
| **Skills applied** | Rapid Prototyping, Functional Analysis, Software Architecture Design, Development, Deployment to production, Support for Platform in Production |
| **Technology used** | C# .NET, SQL Server, ASPX |

**Spanish native, English fluent.**

**PHP Full Stack Developer**

PHP 8, Synfony, Web Stack (See related techs section below).

**Java Full Stack Developer**

Java 8, Spring Boot, Thymeleaf, JPA, Hibernate, Maven, Eclipse, Web Stack.

**Related Techs**

| | |
|---|---|
| Other related techs: | Agile development, HTML5, JavaScript, Microservices, Web Frameworks,CCS3, SQL, API Rest, GIT and other (ask for details). |

## MORE DETAILS

**Availability to travel and remote work**

*Bureaucratic processes in course, additionally: Computer Technician, J.F.Kennedy, Lanús.
